

Celebrating Women in Photography Today

HUNDREDS OF WOMEN

Petulia Mattioli

Since the beginning my work has been mainly focused on human existence and its objective reality. Deep inner "liquid light" that I observe, catch and try to show in my work through photography, performance and video installation. I love to capture emotions often meshed with knowledge and memory, and put them in relation with the audience.

Polyhedric visual artist working with digital photography, graphics, video, installations and live multi/visions.

She has shown at Berliner Kunstsalon, Berlin - Germany; SeeMe Exhibition Space, New York - USA; Barbican, London UK, Palazzo delle Papesse - Contemporary Art Center, Siena - Italy; Palazzo Ducale, Genoa - Italy, Galleria Giulia Contemporary Art Gallery, Rome- Italy...

She is among the ten recommended artists at the Biennale dei Giovani Artisti in 1998.

She currently is living in London
